NNI News Update

December 10, 2007

To receive e-mail notification of updates to this page, send a blank e-mail to

news-subscribe@nnco.nano.gov

Below are current nanotechnology news reports that are updated several times weekly.

[CHINA:UK science bridges the gap](#) -- LabnewsOnline

[Engineers build "smart" pills for drug delivery](#) -- The John Hopkins News Letter

[New Piezo Force Microscopy Module Enables Electromechanical Measurements at the Nanoscale](#) -- Thomas Net

[Lighter compounds could become heavyweight energy champions](#) -- Chemistry World

[Remotely Controlled Drugs](#) -- MIT Technology Review

[Nanoelectrodes could provide bird flu test](#) -- Nanotechnology and Development News

[Virtual 3D nanorobots could lead to real cancer-fighting technology](#) -- PhysOrg.com

[Hot science fields look to bring in college graduates](#) -- Arizona Daily

[Vietnam has technology to delve into atoms, experts say](#) -- Thanh Nien Daily

[Nanotechnology: Is decentralized control feasible?](#) -- Nanodot/Foresight

[India Rolls out nanotech initiative](#) -- EETimes.com

[UTD's nanotube forests yielding tiny-yet-strong crops](#) -- Pegasus News

[Radio waves fire Up nanotubes embedded in tumors, destroying liver cancer](#) -- NCI

[Antibody targeting boosts liposomal drug anticancer activity](#) -- NCI

[Coated ultrasmall quantum dots Suitable for In vivo imaging](#) -- NCI

[Polymer cage stabilizes liposome, improves drug delivery](#) -- NCI

[Building tumor balls for better drug discovery](#) -- NCI

["Trojan horse" delivers drug-loaded nanoparticles deep into tumors](#) -- NCI

[A better resonator](#) -- MIT Technology Review

[Microscope takes nanoscale electromechanical measurements](#) -- ThomasNet Industrial News

[IBM optics promise many-core super](#) -- MacNN

[New cancer diagnostic tool developed](#) -- United Press International

[Cancer Cells 'Feel' Much Softer Than Normal Cells](#) -- Science Daily

[This dust is beyond magical: It's smart](#) -- The Star-Ledger

[Nanotech meets big business](#) -- Chemistry World

[Graphene Nanoelectronics: Making Tomorrow's Computers from a Pencil Trace](#) -- Nanotechwire

[High double-digit growth expected in nanotech cosmetics market](#) -- CosmeticsDesign.com

[Israel pushing hard on nanotechnology R&D](#) -- EETimes

[Singapore opens first nano-scale measurement facility](#) -- Channel News Asia

[The million Euro nanoreactor](#) -- NEWSFOOD
